Mission Moment

“We are brave and strong because we learned important information about rights, feelings and participation.” *PWS&D* supports a human rights program in Guatemala that not only empowers women by ensuring they know their rights but also equips them with essential skills and knowledge about food security and nutrition. Through education on when and how to plant vegetables, grow tree seedlings and how to care for livestock, women have more stable incomes and improve their family’s access to nutritious meals. “We are happy for our project. We sell the trees in the town and use the money to buy food,” shares one of the participants. This program provides women with the resources and skills they need to lift themselves out of poverty.
