Mission Moment

In Guatemala, gender-based violence has been and continues to be one of the most obvious forms of gender inequality. To address this, PWS&D is supporting a project that speaks to the problem of violence against women. Adolescents and young women participate in workshops where they learn about their rights and build their self-esteem and dignity. In addition, the project raises awareness among young men through workshops where they learn about machismo, identify what violence against women looks like and promote commitments to eliminate it.

The November Prayer Calendar and the November/December Today devotional are at the back of the sanctuary and are ready to be picked up
